

About VeriFone

VeriFone is a global leader in secure electronic payments technologies and contactless payments. We provide solutions, services and expertise that enable electronic payment transactions and value-added services at the point of sale and in self-service applications.

Our devices and systems process a broad spectrum of payment types, and our expansive portfolio features contactless solutions in every payment category. Our products incorporate existing technology and the latest in emerging technologies and comply with all major global security standards. We operate within a network of nearly 40 sales and marketing offices and over 30 development centers throughout the world.

So to unleash the power of contactless, remember the name that's synonymous with unlimited solutions. VeriFone. Visit us today at www.verifone.com/contactless.

Contactless SOLUTIONS

From the Global Leader in Payments Technology

CONTACTLESS UNLEASHED

Release The Power Of The World's Most Extensive Contactless Portfolio

The most products. The most tailored. The most integrated, secure, flexible and future-proof. VeriFone took the full potential of contactless and turned it loose.

TRUST VERIFONE TO GUIDE YOU THROUGH THE NEXT EVOLUTION OF PAYMENTS

Unparalleled Leadership

For most things to reach their full potential it takes time. For contactless, it took VeriFone. With thousands of contactless solutions deployed around the globe, VeriFone has commanded the lead role in contactless innovation and implementation. Count on the industry leader to help guide you through the next evolution in electronic payments.

Unmatched Portfolio

For every contactless need, VeriFone has a solution. Products in every market segment. A complete offering. Totally secure and totally flexible. Whether fully integrated, modular or stand-alone, contactless is easily added to existing solutions

now and later. With a holistic end-to-end approach, VeriFone brings one-stop shopping to the new standard of payments.

Unlimited Potential

Unlock the limitless potential of contactless with VeriFone's SingleCI (Single Contactless Interface). Now you can write to VeriFone's entire contactless product portfolio with a single application. No one else offers a single contactless interface – a one-time investment that nets endless returns. And paves the way for cutting-edge technologies like NFC. With SingleCI, the future is now. Embrace it with the leadership, guidance and expertise you've come to expect from VeriFone.

Vx 810 DUET
Dual-user, dual-function countertop solution with integrated contactless module
