

# Circular by Design: Verifone's Commitment to Sustainable Payments

Verifone builds payment solutions that balance performance with responsibility, embedding sustainability throughout the product lifecycle.

## Our purpose and commitment

Better commerce is also better for the world. Verifone's sustainability practices anchor on three pillars—People, Planet, and Principles. That means designing durable, efficient devices, setting clear expectations for suppliers and manufacturing providers, enabling circular programs that keep products in service longer, and ensuring responsible recycling at the end of a device's life. It also means supporting accessible payments for more people, in more places, with confidence.

**Sustainability is integrated into product decisions, supplier standards, operations, and returns.**

Verifone expects suppliers and manufacturing providers to meet these industry standards.

(Where applicable).

## Driving change, measurably

# 50%+

of manufacturing energy comes from renewable and clean sources

# 21%

reduction in manufacturing GHG since 2020

# 100%

devices are recycled through Verifone partners when returned

These pillars guide how we work, innovate, and grow—driving progress that's both responsible and sustainable.

### People

We uphold human rights, safe workplaces, and ethical sourcing, while empowering our teams through ongoing education and professional development.

### Planet

We extend device life, minimize waste, and maximize efficiency through repair, reuse, upgrades, and software-first solutions.

### Principles

We maintain the highest ethical standards—zero tolerance for bribery, fair dealing, respect for IP and privacy, and a commitment to quality and continuous improvement.

### Looking ahead

We're scaling paperless experiences, advancing accessibility, and pursuing reduced plastics—including a 60% recycled plastics commitment for the Verifone Victa family—while deepening our use of renewable energy, implementing circular programs, and enhancing our reporting.
