

State-of-the-art site management.

COMMANDER SITE CONTROLLER

Commander Site Controller from Verifone offers convenience store owners a versatile site management solution providing increased speed in payment acceptance, fueling operations, and back-office store control. Commander is certified across all dispenser types, payment networks and oil brands. The solution features Commander Console, a cloud-based software that allows owners to manage all aspects of business, from fuel to payment and store operations, quickly and easily from any web-enabled device.

Commander Console

- Real-time access to multi-site sales data through an easy-to-use dashboard
- Filter sales data by location, site, product type and more
- Create organization hierarchies, groups, user accounts and permissions for ultimate security and control
- Designed specifically for the convenience retail industry
