Improve the consumer experience.

The world of retail is being transformed, driven by new technologies and increasingly demanding customers. The consumer experience plays an important role in supporting this new paradigm. Partner with Verifone for solutions and best practices to implement:

- Mobile to tackle line busting and endless aisle
-Omni-channel commerce for one experience in-store, online or on the go
- A common interface and features across all acceptance points
- Personalized, relevant, high-value and non-invasive interactions

Retail Solutions

SMART PAYMENTS.  SMART SOLUTIONS.  SMART COMMERCE.

PAYMENTS TODAY.  SMARTER COMMERCE TOMORROW.

The retail experience is transforming, and customers are now in control of the relationship. They are connected, socially networked, better informed and unique. They want to choose their own payment methods and be rewarded. The customer journey is omni-channel and complex. Verifone is here to guide you through these complexities and stay one step ahead of the competition (and whatever is next).

Solutions for everywhere; inside or outside your store.

Go beyond the checkout counter with mPOS (mobile point of sale). Interact with your customers from anywhere on the sales floor to increase service and reduce checkout times.

- Reduce checkout times
- Increase customer throughput
- Create a memorable shopping experience
- Grow store sales
- Engage active shoppers with endless aisle
- Multi-lane, countertop, portable and PIN pads: a device for any use case

Let us manage payment complexity for you.

Focus on what’s important to you; running your retail operation, and leave the payments to us! All of our solutions are EMV ready which means Verifone will do the EMV certifications for you with our Point, FIPay and RTS solutions. Manage your estate to ensure every device has the current software and help you meet PCI requirements.

- Reduce your risk of a data breach
- Accept the payment methods your customers want to pay with today and into the future
- Receive guidance to navigate complex EMV requirements and certifications or let us manage this for you
- Leverage best practices gained from thousands of deployments
- Streamline the deployment process

Never lose a sale again due to inventory issues

Simplify the complexity of managing payments

Futureproof solutions ready for today’s and tomorrow’s payments
