

November 19, 2020

PCI 3 Guidance and Discontinuance Bulletin

This notice corrects several recent errors in the October 23 bulletin related to end of service dates. The end of service date is set to the original date of April 2023.

Thank you for choosing Verifone as your trusted Payment solution provider and for previously purchasing PCI 3 payment solutions. Per the PCI Security Standards Council, the official PCI 3 expiration date is April 30, 2021.

Products with expired PCI 3 approvals are not eligible for new sale or new deployments other than repair and replacement of like products. Verifone is offering similarly configured variants, if you're not already purchasing these, that increase your level of functionality and/or security.

It is acceptable to purchase devices prior to the PCI 3 expiry date, however, anyone purchasing expired devices or deploying large number of devices after the expiry date will need to discuss the liability with their acquirer.

Products with expired PCI 3 approvals may remain in the field and are eligible for Delta testing or Delta evaluations provided no security vulnerabilities or exploits are identified by the processors. Check with your acquirer/processor for any sunset dates.

See list of impacted PCI 3 products below (part numbers in Exhibit A):

Countertop (Verix)	Portable	PIN Pad	mPOS
Vx520	Vx675 GPRS	Vx805	e315 Previously EOL
Vx520C	Vx675 3G WiFi/BT	Vx820	e315M
Optimum T5 Previously EOL	Vx680	Vx820Duet	
	Vx685	Vx825 Previously EOL	

Countertop (VOS)	Portable	PIN Pad	Multilane
Vx520	Vx675 GPRS	Vx820	Mx915 (PCI 3.0 only)
Vx520C	Vx675 3G WiFi/BT	MagIC R4 Previously EOL	Mx925(PCI 3.0 only)
MagIC X4 Previously EOL	MagIC M4 Previously EOL		
H5000			

Unless previously announced EOL order, shipment, development, support and service dates announced, the following dates will apply:

Final Order Date: After November 15, 2020, Verifone will cease taking orders for the above PCI 3 products. Verifone encourages you to order related spare parts for PCI 3 products at the time you place your final order.

Final Shipment Date: Verifone will ship valid orders for the above PCI 3 products placed on or before the Final Order Date by approximately April 15, 2021.

End of Development Date: Except as previously agreed by Verifone in a written Agreement, Verifone is no longer conducting feature enhancements for the PCI 3 products listed above, including any functional improvements or changes, support for existing or new product or service, new EMV kernels or certifications, or any other enhancement.

End of Support Date: Verifone will not issue software updates or provide development support after April 2021, except that, until April 2023:

- We will continue to provide error corrections for Severity 1 (Critical) software errors, including security vulnerabilities.
- In the event of a compliance mandate issued by PCI / payment card brands, we will work with you in good faith to agree on development support to address the compliance mandate, subject to appropriate compensation and as documented in a statement of work.

End of Service Date: Other than for devices subject to an extended warranty, Verifone will discontinue service and repair of the above PCI 3 products after April 2023. Verifone is no longer offering extended warranties or other support commitments that would extend beyond April 2023.

Verifone will honor valid extended support contracts for the above PCI 3 products to the full term. This includes any valid extended warranty, Buyer Protection, or other customer support commitments with respect to PCI 3 products that have previously been accepted by Verifone in writing. Subject to component availability and other factors, Verifone will also continue to provide repair through the End of Service Date (April 2023).

Thank you for choosing Verifone solutions. I look forward to speaking with you about your last-time-buy needs and discussing new additions to Verifone's growing portfolio next generation solutions. Should you have any additional questions, please feel free to reach out. Thank you for your continued partnership.

Exhibit A: PCI 3 and Previously EOL Part Numbers

A complete list of PCI 3 part numbers can be referenced below. Previously EOL items noted with “EOL” will follow the announced EOL dates and cannot be ordered.
